INTRODUCTION

Machine Translation, Multilingual Evaluation, NMT, NLP, AI

As an **AI researcher**, I dream of a world where everyone connects beyond language barriers.
Driven by a deep affection for humans and language, my research focuses on **machine translation**.
Recently, I led the research team for **'KUEST: Korean Game Usage Evaluation Suite for LLM Translation'**, and our paper was accepted to the **EMNLP WMT26 Test Suites track**.
I'm preparing for my **master's studies in Europe**, aiming to begin in two years.

PAPERS

https://shorturl.at/C1d3m

- **KUEST: Korean Game Usage Evaluation Suite for LLM Translation** — **EMNLP WMT26**
- Speed Improvement of Transformer Model using Shared Attention Network and Multi- Query Attention — KCC 2021
- Automatic Construction of Chat- Written Style Conversion Parallel Corpus — KCC 2021
- NMT Training Method for Korean-English Idiom Machine Translation — HCLT 2020
- A Data Set and Evaluating Method for Korean-English Idiom Machine Translation — KCC 2020
- Error Word Detection in Korean Corpus — HCLT 2019

EDUCATION

Bachelor of Engineering, **Computer Science**, **Soongsil University** 2009 - 2014

PROFESSIONAL EXPERIENCE

AI Researcher & Engineer

ShinhanDS **2025 – now**
AI Safety
- Evaluating and implementing LLM guardrail technologies for an Enterprise AI solution
- Developed a PII detection model for life insurance data (F1-score 0.9694)

Corporate Lecturer (Officially appointed)
- Leading AI literacy and AI agent development training for internal staff

Rainbow Brain 2024 - 2025
Developed RAG-based LLM chatbot solutions for the life insurance industry

Dencomm 2023 - 2024
Developed and optimized a voice command recognition system for dental applications

BeringLab 2021 - 2022
Trained multilingual patent translation models and constructed datasets

Malware Analyst in Cybersecurity

Hauri 2014 - 2017

Malware Analyst for the antivirus program provided to the Ministry of National Defense, Korea

SK Shieldus 2014 - 2014

Malware Analyst at Cyber Security Center, Ministry of Employment and Labor, Korea

ESTsoft 2012 - 2013

Malware Analyst in 'Alyac' Team

ACTIVITIES

SHTM x Pseudo Lab Joint Forum & Workshop **2026.09.18**

PolyU(The Hong Kong Polytechnic University), Pseudo Lab

Industry-Focues Talks

Invited Speaker: 'Strategic Insights for AI Translation in Tourism & Hospitality (https://lnkd.in/p/gu55h2uY)

Open Source Contribution 2025

NIPA, supported by the Ministry of Science and ICT, Korea

Hugging Face OSS

- Localized and translated Hugging Face technical documentation for the open-source AI community

Feature Implementation for 'PR-Agent(The Open-Source PR Reviewer Project)'

- Contributed new features to PR-Agent (https://github.com/The-PR-Agent/pr-agent/pull/1869)

VOLUNTEERING

World Friends Korea ICT e-Volunteer 2021 - 2023

NIA, supported by the Ministry of Science and ICT, Korea

AI Instructor

Lectured on AI model training with practical machine translation experience

- AI Translation Model Training & Backend Development for BUET (https://github.com/KIV-All-For-One-2023)
- AI Translation Model Training & AI Literacy for TUIT (https://github.com/KIV-All-For-One/Lecture)

HONORS & AWARDS

Girls In Tech Korea 2nd Scholarship 2022

Girls In Tech

World Friends Korea ICT e-Volunteer Excellence Award 2021

NIA, supported by the Ministry of Science and ICT, Korea

GLOBAL EXPERIENCE & LANGUAGE

Working Holiday in France 2018

English TOEIC Speaking IH 2022

French DELF A2 2018
